Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If the period for reply specified above is less than thirty (30) days, a reply within the statutory minimum of thirty (30) days will be considered timely.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 112

1. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

2. Claims 1-9 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 1, line 5, the phrase "gripping structure [16]" is indefinite since the examiner cannot locate reference number 16 in applicant's specification or drawings.

Claim 1, line 12, "said plastic article" lacks antecedent basis in the claims.

Claim 1, line 15, "elongate element [20]" should be changed to – elongate stem element [20] – to maintain proper antecedent basis in the claims.

Claim 2, line 6, "said stem elements" should be changed to – said elongate stem elements – to maintain proper antecedent basis in the claims.

Allowable Subject Matter

3. The following is a statement of reasons for the indication of allowable subject matter:

Regarding claim 1, in an apparatus to facilitate surface treatment of articles of manufacture, the prior art does not teach or make obvious the concept of a source of elongate stem elements, said source being positioned to align a given one of said elongate stem elements with the elongate axis thereof in a predetermined orientation

Art Unit: 1734

relative to the given handling surface of the plastic article in combination with a securing mechanism for fixedly attaching the free end of the given elongate stem element to the given handling surface of the plastic article such that the stem element thereafter fixedly extends from the handling surface to serve as a handle for manipulating and supporting the article in the manner claimed by the applicant.

Regarding claim 10, in a method for facilitating manipulation of articles of manufacture during surface treatment processing, the prior art does not teach or make obvious the concept of aligning an elongate processing stem in physical contact with the article of manufacture at a given point of contact, and physically attaching the processing stem to the article of manufacture at the given point of contact, such that the processing stem can be used as a handle for manipulating and supporting the substrate article in the manner claimed by the applicant.

4. Claims 1-9 would be allowable if rewritten or amended to overcome the rejection(s) under 35 U.S.C. 112, 2nd paragraph, set forth in this Office action.

5. Claims 10-14 are allowed.
